HOSTING PROGRAM · MEMBER REPORT

Hosted Machines
Member Guide

Everything you need to know about the two ways to take part in the Hosting Program, getting rewards on a hosted machine, and converting it to a home machine whenever you choose.

OPTION 1

Non-deliverable countries — for members who live where machines are not currently delivered.

OPTION 2

Deliverable countries — for members who already have a machine delivered and fully loaded at home.

However you take part, Hosting Program participation counts towards your Tier progression.

Original English version of the NodeLink Hosting Program Member Guide (October 2026).
AdagioLegacy · Organized by AdagioLegacy · Information based on personal research: it does not bind NodeLink or the Link group · This is not an official NodeLink training.

OPTION 1 · NON-DELIVERABLE COUNTRIES

Grow your capacity, without leaving home

If we don't currently deliver machines where you live, you can still take part straight away by buying a hosted machine — kept and run for you by a NodeLink hosting partner.

At a glance

$250
Fee per machine, paid once — no shipping charged

100
Licences of capacity per hosted machine

REWARD
You receive the majority of the reward on your hosted licences. A small share is retained to cover the cost of hosting.

TIER PROGRESSION
The Hosting Program is eligible for Tier progression.

DELIVERY, LATER
If or when delivery becomes available, pay $180 to have your machine shipped and receive the full reward.

Organized by AdagioLegacy · Information based on personal research: it does not bind NodeLink or the Link group · This is not an official NodeLink training

OPTION 2 · DELIVERABLE COUNTRIES

Keep growing, without another machine at home

If you already have a machine delivered and fully loaded at home, hosting lets you keep growing beyond it — not replace it.

At a glance

ELIGIBILITY
Purchase at least one machine and take delivery, then fully load it — at least one hosted machine beyond that is required to take part.

GROWING YOUR CAPACITY
Purchase any number of licences and allocate them to the Hosting Program, instead of running more machines at home.

REWARD
You receive the majority of the reward for the licences allocated to the Hosting Program. A small share is retained to cover the cost of hosting.

Why choose hosting

⚡

Start getting rewards immediately

No waiting for delivery.

✔

No setup, no online check

Hosted licences are rewarded every day, with no offline penalty.

★

Reach Tier 3 from anywhere

A fully loaded hosted machine counts the same as a fully loaded home machine.

Organized by AdagioLegacy · Information based on personal research: it does not bind NodeLink or the Link group · This is not an official NodeLink training

HOW REWARDS WORK

What you get, tier by tier

Licences on hosted capacity receive a reduced reward, to cover the cost of hosting. Licences on a home machine keep receiving the full reward.

Reward by tier

Based on a fully loaded machine (100 licences, $25 each = $2,500). As a new member your reward phases in over your first months.

TIER	HOME MACHINE / MO	HOSTED MACHINE / MO
User	up to $112.50	up to $103.50
Tier 1	up to $125	up to $115
Tier 2	up to $150	up to $138
Tier 3	up to $175	up to $161

$

Example — 100 licences at Tier 1

At the full Tier 1 reward, a fully loaded machine earns $125/month. On hosted capacity you receive a reduced reward: $115/month. The remaining $10/month goes towards the cost of hosting.

Always rewarded, no online check — hosted licences are rewarded every day, with no online check and no offline penalty.

Your home machines always fill first — licences only move onto hosted capacity once your home machines are full, whether activated by you or by Auto Link.

Bonuses for your upline — Node Activity is reduced on hosted licences in the same proportion as your reward. Node Growth on hosted activations is paid in full, with no reduction.

HOW IT WORKS

From purchase to full reward

Four steps — buying, filling, getting rewards, and converting to a home machine whenever you choose.

01

Buy a hosted machine

$250, paid once. No shipping is charged at purchase — capacity is ready right away.

$

02

Your licences fill it automatically

Your home machine always fills first. Extra licences move onto hosted capacity, whether activated by you or by Auto Link.

⇄

03

Get rewarded every day, no online check

Hosted licences are rewarded daily, at a reduced rate that covers the cost of hosting. There is no offline penalty to worry about.

✓

04

Convert to a home machine, any time

Once your country opens for delivery, pay $180 per machine to have it shipped — your licences then move to the full reward.

→

A hosted machine counts as a machine everywhere

Tier qualification

Counts towards the machine you need for every tier, including a fully loaded Tier 3.

Referrals & USDN boost

Your referrals' hosted machines count towards your own tier, and each hosted machine counts for the USDN boost.

Machine purchase bonuses

Buying a hosted machine counts the same as buying a machine.

PRICING, PAYMENT & QUESTIONS

What it costs, and what members ask

A short reference for price, payment timing, and the questions members ask most about hosting.

Price & payment

ITEM	PRICE	WHEN YOU PAY
Hosted machine	$250*	Once, at purchase — no shipping charged
Convert to a home machine	$180* per machine	Later, once your country is open for delivery
Total if you convert	$430* per machine	Spread over two payments

* Cost subject to change

Quick questions

Q **What's the difference between Option 1 and Option 2?**
Option 1 is for members where we don't deliver yet. Option 2 is for members who already have a machine delivered and fully loaded, and want to keep growing.

Q **Why is the reward on hosted licences lower?**
A small share is retained to cover the cost of hosting and running the machine on your behalf, so you never need to keep a machine online.

Q **Does hosting help me reach Tier 3?**
Yes — a fully loaded hosted machine counts as a fully loaded machine, under either option.

Q **Is it covered by Buyback?**
Yes, at the amount you actually paid: $250, or $430 once converted to a home machine.
